Education

Athens University of Business and Economics Athens, Greece
B.Sc. in Management Science and Technology Sep 2023 - June 2027

- **Specialization:** Business Analytics and Information Systems
- **Relevant Coursework**: Database Systems (SQL), Quantitative Methods, Data Structures & Algorithms, Data Analytics and Machine Learning, Programming Languages, Process modeling, Mathematical Programming, Optimization.

University of Antwerp Antwerp, Belgium
Erasmus+ Exchange Student, Faculty of Business and Economics Sep 2025 - Jan 2026

- Selected for the Erasmus + scholarship program based on academic performance.
- **Master level Coursework**: Strategic Management, Digital Transformation, Digital Innovation, Sociology
- **Cross-Cultural Collaboration:** Partnered with international teams for academic projects, delivering impactful presentations.

Projects

EcoDine – Restaurant Management System

- Built a **full-stack** Java Spring Boot app with a responsive HTML/JS UI, integrating the Spoonacular API and email schedulers for real-time inventory alerts.
- **Minimized food waste and improved efficiency** by utilizing Knapsack and Greedy algorithms to automate daily dish recommendations from expiring stock.

ERP Production Tracking Prototype

- Executed comprehensive **business analysis** by capturing requirements through user stories and process mapping to align the system with operational needs.
- Designed **a web-based UI prototype** featuring reporting dashboards, which digitized paper-based processes to simplify data capture and improve data accuracy.

Data Visualization & Analytics (Power BI, Tableau, SQL)

- Designed interactive dashboards to analyze sales and operational metrics, transforming raw data into insights.
- Utilized SQL for data extraction and performed cleaning/ETL to ensure data integrity across various datasets.

Experience

Hospitality Sector Kalamata, Greece
Barman Summer 2024/2025

- Managed ~100 customer orders per shift (17:00–01:00) in a fast-paced bar environment, maintaining service quality under pressure.

Praktiker Hellas Kalamata, Greece
Sales Consultant June 2023 – September 2023

- Consistently met sales targets by identifying customer needs and recommending tailored product solutions.
